

# How to Install Photoshop Extensions

## Install the Extension Using an Installer.jsx File

1. Download the extension files from the link in the purchase, and **unzip** them.
2. Run Photoshop (for Windows user: right click on the PS icon, choose "**Run As Administrator**").
3. Navigate to the menu *File > Scripts > Browse...*
4. Select an **installer.jsx** file from downloaded folder.
5. Follow the instructions.
6. **Restart Photoshop.** You will find extension at *Window > Extensions > extension\_name*.

⚠ Please try to use the next additional installation method if you have no an **installer.jsx** file or if you had an installation error and don't saw the extension in the menu *Windows > Extensions* after the Photoshop restart.

## Additional Installation Methods

### Manual Installation

1. Download the extension files from the link in the purchase, and **unzip** them.
